

Raising the Light of the Soul

Approaching a new order that has a vast future therapeutic potential.

An energy medicine master class that will evaluate the sensory energy changes and developments over the last century.

A class for complementary and energy medicine therapists to add to their skills and knowledge the function and development of the energy body in healing.

Date: Saturday 12th August 2017. Ripponden West Yorkshire

Time: 1pm to 4pm

The tutorial will show how the energy of Light has raised the level of the Soul from a diminished state to an awakening of full potential, healing and enlightenment; exploring a redeveloped healing dimension that is significant, functional, compassionate, far reaching and fulfilling.

We will study how echelons of transformational, empowering energy that were previously unfamiliar and unattainable are now available and fully functioning and we will follow the progress of the energy of Light within the concepts of cosmic consciousness.

The programme of Healing Light includes:

- ✚ Re-Membering: The expansion of Major Chakras.
- ✚ Revitalised energy centre wavelengths; their principles, vibrancy and energetic affiliation.
- ✚ The emergence, flow and purpose of the Divine Feminine.
- ✚ Energy wavelength parallels with the 10 Sefirot on the Tree of Life.
- ✚ Specific fields of Light above the Crown – the awakening to meaningful and useful dimensions.
- ✚ The all-encompassing and dynamic field of Light that is Magenta.
- ✚ Incorporating new fields of Light into constructive meditation.

Venue: The Training Room, Riverbank School, Mill Fold, Ripponden HX6 4DH

Fee: £35 includes afternoon tea at 4pm.
